

Request for Input

Core Canadian Emergency Management Topic Areas

The department of Public Safety and Emergency Preparedness Canada is building an online resource centre that will contain Canadian emergency management related information. PSEPC is requesting your input to help identify core emergency management related topic areas that will contribute to an overview of this discipline. Based on your input and consultations with others in the field a search and literature review will be performed. The results of this search will be incorporated into the online resource centre.

Examples of emergency management related topics include:

1. Legislative framework for emergency management in Canada
2. Four pillars of emergency management in Canada (preparedness, response, recovery and mitigation)

Please identify one or up to a maximum of five core Canadian emergency management topic areas.

1. _____
2. _____
3. _____
4. _____
5. _____
